<b>INTERFERENCE SEARCHED</b>			
Class	Subclass	Date	Examiner

The image consists of two distinct horizontal black lines. The upper line is a thick, solid black rectangle that is nearly the full width of the frame. The lower line is a thinner, solid black horizontal line that is intersected by two vertical black lines, one on the left and one on the right, which extend upwards to meet the upper line, forming a cross-like shape. The background is white, and there are some minor scanning artifacts or dust specks visible.
